

Enduro

A Standard no other Boat can endure

www.enduroboats.co.nz

Introducing the Enduro Boat

Dedicated to quality the Enduro Boat was born, inspired by customers to build an innovative big small boat. With all the attributes of a larger vessel but all the handling and manoeuvrability of a small boat. Perfect for that quick fishing trip out to catch dinner. A soft ride is attributed to a 14 deg V whilst stability is enhanced by both the wide beam and large reverse chine. The 4100 is a multi purpose boat, adaptable to many applications.

Specifications

Length on trailer	5.5m (outboard down)
Width on trailer	1.98m
